

Since getting on the NJ Do Not Call List our family has had months of peaceful dinners uninterrupted by nasty, I repeat NASTY telemarketers who don't give their names and don't take to be hung up on. Often they would call back and yell at me. Where do they get that right?

I wish to add to the list of those who can't call me ...Please no more Police Benefevolent Leagues either. On the News I have heard these are often scams just like the telemarketers.

If we don't wish to be called why can't we put ourselves on this list and be listened to? Isn't this America or is it ok that we are victimized. Leave New Jersey alone.
